WELCOME TO

CONTENT

Don't miss a chance to meet up with leading food companies from South Korea!

We, Korea Agro-Fisheries and Food Trade Corporation (aT), are pleased to invite you to join our exclusive online business matching with leading Korean food companies which will be held on 26th-27th October 2021.

As a state-invested organization, we have established a foundation for strengthening the agricultural product export system by export promotion policy and have promoted Korean agricultural and food products in the overseas market through diverse support programs worldwide. We are trying to satisfy overseas buyers and customer's expectation on Korean agricultural and food products.

We firmly believe that this event will ensure that overseas buyers experience promising and high-quality Korean agricultural and food products, and also give a chance to find a great business opportunity with emerging and highly-competitive Korean exporters.

The event is the 3rd one this year, so we organize an informative event which virtually provides opportunity to accelerate your business growth with Korean exporters. In addition, you will participate in an exclusive one-on-one business matching and get insights and distinctive information of various Korean agricultural and food products from the originals.

Since Korean food has been in high demand even during Covid-19 outbreak, we are confident that it will be great moment for Korean exporters together with Thai, Myanmar, and Indian buyers to make a successful business chance.

Get ready, don't hesitate, and join us!

**AGRICULTURE CORPORATION
CHEONGDO WONGAM CO., LTD.**
농업회사법인(주)청도원감

Cheongdo Wongam is a family company that manufactures persimmon products such as semi-dried persimmon, dried persimmon and ice ripe persimmon. Main products of Cheongdo Wongam are made only with Cheongdo persimmons, which are called 'God's food'. They are dried with the high-dimensional cold wind dehumidifying dryer. We are producing products that are rich in vitamins and minerals, which are essential for modern people, along with excellent taste.

BOEUN SAMGA JUJUBE FARM 보은삼가대추농원

I am Kim Hong-bok. I operate Boeun Samga Jujube Farm in Samga-ri, where the water and air are fresh and clean on Songnisan Mountain. I returned to the rural area and acquired the farmland in 1999. In 2002, I planted 1,800 jujube trees. Since then, I have spared no effort to cultivate them with complete care, dreaming of a 'Peter Pan in Jujube Land'.

Now, my farm is capable of producing 20 tons of jujube every year. I have adhered to environmentally-friendly agricultural farming and produce high-quality jujube. As a result, I obtained the Certificate of GAP Agricultural Products Management Excellence from the National Forestry Cooperative Federation. Boeun Samga Jujube Farm produces and distributes dried jujube, jujube snacks and jujube juices as well as fresh jujube.

DONGHWA FOOD HIGHLIGHT PRODUCTS

SALTED & SEASONED POLLACK SLICE

Among salted seafood, it does not have a fishy smell, and it is also good to use in various ways such as side dishes, rice, naengmyeon garnish, and bossam side dishes. So it is a delicious food that is satisfying to take out at any time in the refrigerator. It depends on your preference, you can add either Cheongyang red pepper or oligosaccharide.

SALTED & SEASONED POLLACK ROE

It is a high-quality product with a moderate salty and unique savory texture of the eggs. We use fresh and carefully selected ingredients with our heart into it.

STIR-FRIED WEBFOOT OCTOPUS

Stir-fried Omani webfoot octopus was firstly aged with deep sea water and plum extract after dehydration, and then secondly aged with natural handmade seasoning and mixed. Stir-fried Omani webfoot octopus is easy to store, to cook and to eat outdoors as it's in individual packaging,

SALTED & SEASONED SQUID

It's not difficult to hand peel-off the squid. Yet, the texture is still good. When you sprinkle thin sliced green onion and sesame salt, the combination of this salty taste stimulates your appetite and makes it more delicious.

DONGLIMFOOD 동림푸드(주)

Since 2005, Donglimfood Co. Ltd., has made a good reputation in the freeze vacuum drying food business in Korea, which has supplied our qualified product to over 100 brand companies including Pulmuon, E-mart, Lotte group, etc. Based on the company's trust and continued research, Donglimfood will be the top FD manufacturer in South Korea.

HAYEAREUM CO.,LTD (주) 해여름

Haeyeareum means the fruit of the sea, which implies a clean and safe Eco-friendly brand that concerns the health of our customers and shares the fruit of nature. The pure bay salt Haeyeareum is a salt derived by evaporating seawater in the natural sun and wind only in Docho, Sinan-gun, where it has been designated as a bio-conservation area by UNESCO. We naturally reduce seawater to around 5%, by aging salt for five years. The mineral content of the product is increased and the sodium content is lowered. 5 years ripening Premium Bay salt 'Lo' is No coloring, No Preservatives, and Chemical-free salt. In addition, you can enjoy premium sun-salt products at a lower price than other companies as we also have our own production process.

JANGMAEUL 장마을

JANGMAEUL' Pursuing an honest traditional taste.

The basis of every taste of traditional Korean food is traditional paste and sauce. In these days of busy life, it is getting harder to cook with the paste and sauce. 'JANGMAEUL' inherits the taste and function of traditional paste and sauces. In addition, we care about making traditional paste and sauces for eating and cooking to be easier, tastier, and healthier.

JANGMAEUL promises you that we will always work hard for service to "Delicious, Clean and Honest."

NATURE FARM CORP. 농업회사법인(주)네이처팜

Nature Farm is the biggest persimmon processing company as a single company. By using Cheongdo flat persimmon which is the only seedless persimmon in Korea, we produce dried-persimmon, half-dried persimmon, and ice soft persimmon and sell in domestic market and export to other countries. We are also a leading company in protecting the environment, by developing and commercializing Persimmon Syrup which are made from the persimmons left with the technology of Nature Farm. We have excellent drying and sterilizing technology and our own R&D center, so we are producing the fine quality Persimmon processed products based on our strict quality management system. Over the stable domestic market, we targeted 2018 as the year of export, tried hard to increase 300% growth in exporting compared to 2017, and in 2019 achieved 1-million-dollar export. It was the first time in persimmon processing industry. We settled down in Japanese market which is the strictest nation of the imported products in the world. Also, we are supplying to Southeast Asia including Thailand, Hong Kong, Vietnam, and Singapore. We sell the best products in Australia and Canada. Therefore, we could achieve over 20 million exports in 2020. However, not satisfying with it, we are planning to expand our capability of exporting to make people in the world to meet the Korea's best agricultural products. In this year, 2021, we are going to break into markets in the Middle East and Europe as well as expand sales in Japan and Southeast Asia by developing new product of dried snack with Korea agricultural products.

NATURE FARM CORP. HIGHLIGHT PRODUCTS

DRIED PERSIMMON SLICE

Nature Farm's dried persimmon slice is made from the best seedless persimmon grown in clean air and sunlight in Cheongdo-country and it's dried after being peeled and cut into 3-4 pieces (1 piece: 7-11 g). Unlike other common dried fruits, it is mini-size dried persimmons which have the most jelly texture. This mini-size dried persimmon is a wellbeing snack which is one-bite size and good for health, because it's dried without the damage of vitamins and various flavonoid contents of bumpy persimmons.

HALF-DRIED PERSIMMON

Half-dried Persimmons are dried naturally after being peeled and it's supplied as a dessert. Dried outside part has the chewy texture, and the inside part has more texture as the original Cheongdo Flat Persimmon. Also, it is a safe food from mold, and it has a supple shape which is neither too watery nor too hard.

ICE PERSIMMON

Ice persimmon is the frozen product that is quickly frozen at -45°C after being peeled out and removed from astringency by maintaining the shape of persimmon. You can enjoy persimmon even in summer with Ice Persimmon, which is a seasonal fruit of autumn and winter.

THE EAST INC. (주)더동쪽바다가는길

WE OFFER TRUSTWORTHY AND HONEST FOOD.

THE EAST INC. produces, distributes, and sells high-quality fish products made from trustworthy ingredients sourced from the pristine waters of the East Sea. With our achievements in culinary contests and 20 years in the fisheries business, we seek to produce healthy and reliable products of the highest quality for our customers. Our flagship products, Hong Yeong Ui Snow Crab White Soy Sauce and Hong Yeong Ui Snow Crab Fish Soy Sauce, are now made in the latest automated facilities capable of producing 12,000 bottles per day.

As of 2020, The East Inc. has 7 fisheries patents for our herring and snow crab-based products. In addition, the completion of our production plant within the LOHAS Marine Product. Hub Complex in 2017 enabled the mass production of our products, allowing us to expand and enhance our specialty.

Our production facility is currently located on a 3,157m² lot and is equipped with cold storage and automated facilities capable of producing nearly 1 million products per year. All our facilities are managed in compliance with HACCP standards.

THE EAST INC. HIGHLIGHT PRODUCTS

HONG YEONG UI (SNOW CRAB FISH SOY SAUCE)

This all-purpose soy sauce is made from a masterful blend of soy sauce with the rich extract of snow crab and natural ingredients (onion, kelp, dried anchovies, green onions, etc.) The elegant flavors of fish, coupled with the rich soy sauce, add a delicious taste to soups, stews, and other dishes.

Bottle / 500 ml

HONG YEONG UI (SNOW CRAB WHITE SOY SAUCE)

This clear sauce is made from the rich extract of snow crab and natural ingredients (onion, kelp, dried anchovies, green onions, etc.) fermented with refined salt and filtered for impurities. Its almost transparent color makes it ideal for light-colored dishes, like clear soups or steamed eggs. Hong Yeong Ui Snow Crab White Soy Sauce was selected as a "BRAND K" product, an initiative of the Ministry of SMEs and Startups (MSS) where high-quality products from small and medium enterprises are selected and included in a joint brand.

Bottle / 500 ml

HONG YEONG UI (MUSHROOM SOY SAUCE)

Shiitake mushrooms grown in the clean and clear nature of the East Sea's mountains are extracted with dried anchovies and kelp and blended masterfully with soy sauce. The rich flavor of shiitake mushrooms adds new dimensions and flavors to your stir-fry or braise.

Bottle / 500 ml

HONG YEONG UI (RED SNOW CRAB SOY SAUCE)

This all-purpose soy sauce is made from a masterful blend of soy sauce with the rich extract of snow crab and natural ingredients. It is flavored with a natural sweetening agent (Stevia), which provides the sweetness of sugar with only 1% of its calories, making it ideal for dishes that balance sweet and savory flavors.

Bottle / 500 ml
